Hi Terry,

Regarding the replacement reclamation surety that is needed prior to finalizing a future transfer of the Courgraph mine Notice from Todd Truman to TLC Rock Products, the required bond amount for a 5-year bond re-evaluation period is \$36,900. This amount accounts for the planned expansion to a total of 6 acres of disturbance.

SITLA has concurred with this amount, which is based on the attached draft average-cost-per-acre bond amounts and which has been verbally approved by the Utah Board of Oil, Gas & Mining.

Let me know if you have any questions.

Peter
